### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Reid on 11/14/10.

The application has been amended as follows:

In claim 10, line 1, "claim 2" has been changed to "claim 1".

In claim 11, line 1, "claim 2" has been changed to "claim 1".

In claim 13, line 1, "claim 2" has been changed to "claim 1".

2. The following is an examiner's statement of reasons for allowance: The closest prior art is US 2003/0096699 A1 by Arletti et al, who teach a process for the production of an emulsion comprising as a dispersed phase a molten adduct of magnesium dihalide-Lewis base (paras 17 and 22), the process comprising subjecting at least two immiscible liquids (para 26) to a sequence of a mixing stage carried out in at a stator-rotor device 1 (figure 1) comprising at least one rotor blade 4 and at least one stator 14, the at least one rotor blade having a peripheral velocity, wherein a peripheral outlet 14 from a first stator-rotor device is connected to a second tank 15 for further processing

by means of a duct 14 for communicating the formed emulsion comprising an initial portion and an end portion, where the Reynolds number  $Re_T$  inside said duct should be higher than 5000 (para 24). Arletti do not disclose that the production be continuous, a second rotor-stator device, the rotor blades being rotor disks, a duct of spiral shape, or a peripheral velocity of the rotors being from 5 to 60 m/s; nor are these elements in their totality considered obvious over Arletti, alone or in combination with other prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Janca whose telephone number is (571) 270-5550. The examiner can normally be reached on M-Th 8-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Walter Griffin can be reached on (571) 272-1447. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
